# ABOUT US

## OUR STORY

Castor Vali was founded by former British Royal Marine Commandos in 2011 as a maritime security company operating off the Horn of Africa. The company expanded quickly across sub-Saharan Africa, building a strong presence in the offshore oil and gas sector and the Gulf of Guinea. Through company maturity and diversification corporate risk services and the development of our own intelligence capability were incorporated to further support organisations pursuing opportunities across the continent. Africa's opportunity extends well beyond its waters. The continent's natural resources, growing markets and expanding infrastructure pipeline present real commercial opportunities for organisations prepared to pursue them. Castor Vali's three service lines exist to help clients pursue those opportunities with confidence.
